

May your Tenderness

C F
 i am your flesh my dear and you are now mine
 C
 we may be slightly clueless but may i ever find
 G F
 my wisdom in foolishness, my strength in being weak
 Am G C
 and may your tenderness forever be me

i hold you very near me and i kiss you on the chin
 you look up at me lovingly and we both smile again
 quietly, quietly rests the gold
 but how quickly the tempest unfolds

(harmonica solo) Em F G (2x)

our first winter was not so long ago
 it was cold there in our first home but i had you to hold
 pull the shades and dim the lights
 can't we just stay in tonight

- STRUM 12TH FRET HARMONIC -

i gave you my word and i made my solemn oath
 blessings and mercy: let's just drown in both

G F
 when my heart is locked and calloused won't you go and get the key
 G F
 when my heart is locked and calloused won't you go and find the key
 Am G Bb
 may your tenderness forever be me
 Am G C Am G C
 honey, you make my heart beat
 Am G F G C
