

## Recovery

F  
i found recovery in a dark and dreary cell  
F/G Am7 G  
chained in a corner, the stench of sin the smell  
F  
i fed myself portions of less than remains  
F/G Am7 G  
i slept in the waste of fraudulent claims

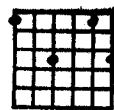

F

F/G

i found myself clinging to my odds  
working to narrow the gap between the broad  
locked like a slave to the pillar that's my pride  
at the admission of my failures you allowed my past to die

F/A G F/A G G/A G/B  
held for the healing, held for the healing

F/A

C F G F  
i found, i found, i found recovery  
Am F G F  
i found, i found, i found recovery

i had a dream, a shaking dream, that scoured my mind  
a life lived hopelessly, the cure i could not find  
but you give graciously to those clinging to seeds and pods  
sometimes a wheat grain, lord, is all that i've got

F/A G F/A G G/A G/B  
hold for the healing, hold me for the healing
