

Passing Through

A A/G# A/F# E
grip the wheel and press the pedal down
A A/G# A/F# A/G#
adjust my seat and speed past this town
A A/G# A/F# E
some days this is not a pretty view
A A/G# B
when you learn you're just passing through

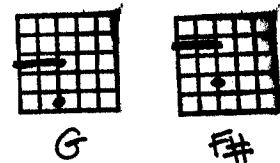

humbled pride i make a very strange sight
a half-filled glass of melting ice
sacrificial lambs and heavenly truth
tough lessons when you're passing through

Esus A A/G#
hold my hand and love my heart
Esus B
be my guide in passing through
Esus A A/G# A/F# E A A/G# A/F# A/G#
be my guide in passing through

trim the hedge and pull the weeds
grace is bigger than the laws i've breached
a spiral is straight when made true
another thought for passing through

i wear the winter on my face
swing the sickle and reap the race
i'm not far from where i grew
one more day in passing through yet
another day in passing through

Esus A A/G#
hold my hand and love my heart
Esus G
be my guide in passing through

F# A A/G# A/F#
so i climb the cliff and i see the view
A/G# A/F# G A A/G# A/F#
i'm glad i'm just passing through

Esus A A/G#
hold my hand and love my heart
Esus B
be my guide in passing through
Esus A A/G# A/F# E
be my guide in passing through.....
