

## Watchman

G D A sus D  
i went through the joy of hearing the call  
G D A sus D  
i remember the pain of learning to fall  
G D A sus D  
i search the trunks of these cedars for joy  
G D A sus D G  
i rummage through manhood only to find i'm a boy

D A sus D  
your life, your love, your limbs, your pain  
G D A sus D D7  
why did you give so much so that i might gain  
G D A sus C  
a crown of thorns, a throne for a king  
G D A sus C  
a stumbling block for such a simple thing

D A G A  
i wait, and wait, and wait, and wait just like the watchmen do  
D A G A G  
i wait, and wait, and wait it seems that's all that i should do

i clamber up the mountain and groan out the steep  
i have to search to find you when i'm staring at me  
see that the winter is the dying of pride  
then the greening that follows is of love long, deep and wide

i wait and wait and wait and wait just like the watchmen do  
i wait and wait and wait it seems that's all that i should do

Bm G F# Bm G A B  
i wait for you to lead me to the room where i must wait

E A B A  
i wait, and wait, and wait, and wait just like the watchmen do  
C#m A B A
